

Dear Sirs:

I have been an XM Satellite Radio subscriber since July of 2003. I have never been happier with my listening enjoyment. I choose to pay a monthly subscription to have this service provided to me and I wouldn't change it for the world. XM always continues to improve it's services and that is why I CHOOSE to listen and enjoy. As a paying customer of XM Satellite service I am completely offended and appauled at the NAB's petition. I will continue my satellite service with XM and support them in future improvements. The weather and traffic that XM Satellite now recently provides is just one more thing that I utilize from them without static interuption that is so very typical with AM and FM public radio. I am a tax paying US citizen! I pay for this service and don't expect it to be censored or to have it dictated by a frightened industry such as the NAB.

Yours sincerely,
Dennis Mitchell
